

MOHAMMED YOUNUS MOHIUDDIN

Tech Lead / Software Development (12x OutSystems Certified), Microsoft Azure AI Certified

MOBILE : +966 592889045 | EMAIL : MYOUNUSMOHIUDDIN@HOTMAIL.COM

"Always ready to learn new technologies and adapt to evolving challenges."

ABOUT ME

Tech Lead with **21+ years of software development experience** in the **Insurance, Aviation and Software Industry**. Holds **12 OutSystems certifications**, including **Professional Developer** and **Architecture Specialist**. Expert in **enterprise solution design, digital transformation**, and building **scalable, high-performance systems**.

Certified in **Microsoft Azure AI**, with a strong focus on **modern cloud and AI-driven solutions**.

PROFESSIONAL TIMELINE

- **Tech Lead – Software Development** - JAN 2026 – PRESENT
Wataniya Insurance Company, Jeddah, Saudi Arabia
- **Senior OutSystems Low-Code Developer** - Jan 2023 – Dec 2025
Wataniya Insurance Company, Jeddah, Saudi Arabia
- **Senior .NET Software Developer** - Aug 2012 – Dec 2022
General Authority of Civil Aviation (GACA), Jeddah, Saudi Arabia
- **Senior .NET Software Developer** - Nov 2007 – Aug 2012
EVER TEAM, Riyadh, Saudi Arabia
- **Software Developer** - Aug 2007 – Oct 2007
AFLAK Electronic Industries Co.
- **Software Developer** - Mar 2005 – Jul 2007
AL AHLIA for Cooperative Insurance

RECENT PROJECTS

- **Amazon Payfort – Digital Payment Integration**
Implemented secure, high-performance payment processing for direct sales, improving transaction reliability and customer experience.
- **Retail Renewal Process (Insurance Domain)**
Automated policy renewals with smart notifications and self-service workflows, significantly increasing customer retention and operational efficiency.
- **Domestic Labor Insurance Platform (Insurance Domain)**
Built a mission-critical B2B platform enabling real-time quotation, policy issuance, and activation for external partners.
- **Claims Recovery Process Automation (Insurance Domain)**
Designed workflow-driven claim recovery automation, reducing manual effort and accelerating financial recovery cycles.

TECHNICAL SKILLS

Back-End Development

- ASP.NET Core (MVC)
- C# / .NET
- GitHub Co-Pilot
- OutSystems (Low-Code)
- LINQ
- Entity Framework
- Microservices Architecture
- Service-Oriented Architecture (SOA)
- DTO (Data Transfer Objects)
- JSON Serialization & Deserialization
- Code-First & Database-First Development

API & Integration

- REST APIs
- SOAP APIs
- JWT Authentication & Security
- Postman
- RedHat 3Scale API Management
- Ocelot API Gateway

Front-End Development

- HTML5
- Bootstrap
- JavaScript
- TypeScript
- SPA (Single Page Applications)
- Angular 14
- jQuery
- AJAX

- **Partners Portal Platform** (*Insurance Domain*)
Developed a centralized portal for insurance brokers for policy management, sales operations of all kinds of insurance products such as Motors, Marine, Property, etc..by integrating it with core insurance systems.
- **ELM Government API Integration**
Integrated government services to retrieve verified personal and vehicle data, ensuring compliance and accelerating underwriting processes.
- **SMS & WhatsApp Communication Integration**
Delivered multi-channel messaging automation enabling real-time customer notifications and improved engagement across business platforms.

TECHNICAL EXPERTISE

- **Low-Code Development & .NET Technologies**
Enterprise level Applications, Backend solutions, microservices, and Windows services & all kinds of APIs and System Integrations (B2B & B2C)
- **Architecture Specialist**
Designing scalable, high-performance enterprise systems
- **Business Process Workflow Automation**
Implementing workflows and process orchestration using OutSystems BPT
- **Security & Compliance**
Role-based access control, encryption, secure API handling, and regulatory compliance
- **Performance Optimization**
Improving application speed, stability, and reducing technical debt
- **SQL & Database Systems**
Optimized data modeling, query optimization, and performance tuning
- **Software Development Lifecycle (SDLC)**
End-to-end ownership: planning, architecture, design, development, testing, deployment, and production support
- **Enterprise & Financial Integrations**
Payment Gateways, External APIs, Messaging and any third-party service integrations
- **Delivery & Team Practices**
Agile Methodology, Scrum, sprint planning, retrospectives, continuous improvement

SPECIALIZATION

- 21+ Years of Experience in Software Development, adhering to enterprise coding standards and best practices

Database Technologies

- Microsoft SQL Server (All Versions)
- Oracle Database
- NoSQL Databases
- PL/SQL
- SQL
- Stored Procedures
- Triggers
- Local Storage

Artificial Intelligence

- Computer Vision
- Natural Language Processing (NLP)
- Machine Learning
- Anomaly Detection
- Azure AI Services
- Optical Character Recognition (OCR)
- Facial Recognition
- Knowledge Mining

Enterprise Integrations

- SharePoint Integration
- Amazon Payfort Integration
- Tabby Payment Gateway
- Tamara Payment Gateway
- Noon Payment
- ELM Integration
- NAJM Integration
- IBAN Verification
- SMS & WhatsApp Integration

Professional Certifications

- Microsoft 365 Certified: Fundamentals
- Microsoft Certified: Azure AI Fundamentals
- SCRUM Fundamentals

- Achieved **12 professional certifications within 3 years**, demonstrating continuous learning and technical excellence
- Expert in delivering high-performance enterprise solutions
- Expert in Security, implementing secure architectures and compliance-driven designs
- Expert in Architecture Analysis, ensuring scalable, maintainable application ecosystems
- Expert in REST & SOAP API Integrations, enabling seamless system interoperability
- Expert in Financial & Banking Integrations, including payment gateways and platforms.
- Advanced Development Expertise, covering best practices, asynchronous processing, system integrations, and complex troubleshooting
- Strong Leadership & Mentorship Skills, conducting code reviews and guiding development teams
- Business-Focused Communication, capable of engaging directly with business stakeholders and customers

OutSystems Certification

- Platform Ops
- Tech Lead
- Associate Developer
- Web Developer Specialist
- Associate Traditional Web Developer
- Professional Mobile Developer
- Professional Web Developer
- Architecture Specialist
- Security Specialist
- Mobile Developer Specialist
- Associate Developer (Cloud)
- Web Developer Specialist (Cloud)

EDUCATION

- **Bachelor of Computer Science (BCA) – Mar 2003**
(Osmania University)

Certifications (7)

Specializations (6)
